

# Waterproof Thermometers

## robust & heavy duty

- ✓ max/min memory & display hold functions
- ✓ strong robust stainless steel probe

These easy to use, digital T-shaped waterproof thermometers offer IP66/67 protection. The thermometers incorporate a probe that is ideal for heavy duty applications.

The T-shaped waterproof thermometers measure temperature over the range of -49.9 to 149.9 °C with a 0.1 °C resolution.

Each unit is housed in a robust polycarbonate case with a strong, stainless steel, penetration probe. The probe measures Ø5 x 125 mm or 300 mm with a reduced tip (Ø3.5 x 20 mm) to improve response time.

The waterproof thermometers feature a max/min memory and display hold function.

specification	810-285	810-287
range	-49.9 to 149.9 °C	
resolution	0.1 °C	
accuracy	±1 °C	
battery	1.5 volt LR44	
battery life	5000 hours	
display	12 mm LCD	
dimensions	30 x 88 x 170 mm	30 x 88 x 345 mm
weight	50 grams	60 grams

order code	description
810-285	T-shaped - 125 mm probe
810-287	T-shaped - 300 mm probe

# Waterproof Thermometers

## optional fast response version available

- ✓ easy to use, pocket-size thermometers
- ✓ water resistant/dishwasher safe

These fast response waterproof food penetration probe thermometers can also be placed inside a dishwasher to ensure the maximum cycle temperature is correct.

The thermometers measures temperature over the range of -49.9 to 199.9 °C with a 0.1 °C resolution. The thermometers features a max/min temperature recording function and at the back of the instrument a discreet °C/°F and reset button. The units incorporate a Ø3.5 x 120 mm stainless steel food penetration probe, the 810-277 has a fast response (FR) tip allowing the user to measure the temperature in less than six seconds.

Each unit is supplied with a protective probe cover that incorporates a pocket clip and a wall-mounting keyhole slot.
