

Digital Fridge Thermometer

with food safety zone indicator

- ✓ energy saving battery feature
- ✓ clear easy to read digital display

This water resistant digital fridge thermometer incorporates a large and clear digital display that indicates temperature over the range of -9.9 to 49.9 °C with a 0.1 °C resolution. The thermometer features a unique food safety zone icon in the display, that indicates when the thermometer is outside the range of 0 to 8 °C.

The fridge thermometer's energy saving feature turns the unit off when the unit is deprived of light, maximising battery life. The thermometer is powered by a single CR2032 battery with a life expectancy of 5 years.

The thermometer is housed in a robust ABS case that measures 18 x 42 x 71 mm and can be free-standing or hung from a shelf in the fridge.

order code	description
810-241	fridge thermometer - white
810-244	fridge thermometer - red
810-245	fridge thermometer - blue

specification	fridge thermometer
range	-9 to 49.9 °C
resolution	0.1 °C
accuracy	±1 °C
battery	3 volt CR2032 lithium coin cell
battery life	maximum 5 years
display	custom LCD
dimensions	18 x 42 x 71 mm
weight	35 grams

Fridge or Freezer Thermometer

with alarm & max/min functions

- ✓ programmable audible alarm
- ✓ records the max/min temperatures

This max/min and alarm fridge or freezer thermometer indicates temperature over the range of -49.9 to 69.9 °C with a resolution of 0.1 °C and an accuracy of ±1 °C.

The thermometer features a large backlit LCD display, a max/min memory function to record the highest and lowest temperatures and an audible alarm. The unit incorporates two temperature sensors, a remote water resistant probe with a one metre PVC lead for the appliance temperature, and an internal sensor for the room temperature. The external probe can be mounted onto the fridge internal wall using the suction pad or mounting bracket supplied.

The thermometer is housed in a robust ABS case and incorporates a foot-stand for shelf mounting.

order code	description
810-210	alarm max/min thermometer

specification	alarm max/min thermometer
range	-49.9 to 69.9 °C
resolution	0.1 °C
accuracy	±1 °C
battery	1.5 volt AAA
battery life	5000 hours
display	custom LCD
dimensions	15 x 52 x 73 mm
weight	48 grams

Fridge & Freezer Thermometer

complete with dual sensor alarm

This versatile fridge and freezer alarm thermometer displays simultaneously the temperature of two appliances over the range of -39.9 to 69.9 °C with a 0.1 °C resolution and an accuracy of ± 1 °C.

The thermometer features an audible programmable alarm indicating when the temperature is outside the set limits (default 8 °C fridge and -18 °C freezer). The alarm feature incorporates a count-up time function which records the length of time, up to 99 hours and 59 minutes, that the fridge/freezer thermometer has exceeded the limits. The unit also incorporates a max/min memory function.

Each thermometer is housed in an ABS case and incorporates two magnetic pads for appliance mounting. The unit is powered by two AAA batteries with a life expectancy of 5000 hours. Each alarm thermometer is supplied with two remote temperature probes, both with a one metre PVC lead.

order code	description
810-200	dual sensor alarm thermometer

specification	dual sensor alarm
range	-39.9 to 69.9 °C
resolution	0.1 °C
accuracy	± 1 °C
battery	2 x 1.5 volt AAA
battery life	5000 hours
display	dual custom LCD
dimensions	23 x 45 x 135 mm
weight	105 grams

Fridge & Freezer Thermometer

complete with alarm & date/time stamp

LOWER PRICE!

This versatile fridge and freezer alarm thermometer enables the user to monitor the temperature of two appliances simultaneously with the additional feature of recording the date and time when the maximum or minimum temperatures have been exceeded.

The thermometer displays temperature over the range of -49.9 to 69.9 °C with a 0.1 °C resolution and an accuracy of ± 1 °C.

The unit incorporates an audible programmable alarm that indicates when the temperature is outside the set limits (default 8 °C fridge and -18 °C freezer).

Each thermometer is housed in an ABS case and has two magnetic pads for appliance mounting. The unit is powered by two AAA batteries with a life expectancy of 5000 hours.

Each alarm thermometer is supplied with two remote temperature probes, both with a one metre PVC lead.

order code	description
810-220	date/time stamp thermometer

specification	date/time stamp thermometer
range	-49.9 to 69.9 °C
resolution	0.1 °C
accuracy	± 1 °C
battery	2 x 1.5 volt AAA
battery life	5000 hours
display	dual custom LCD
dimensions	23 x 45 x 135 mm
weight	105 grams

FoodSafe Fridge Thermometer

simulates food temperature

Most traditional temperature measuring devices in fridges only measure the air temperature. This is a major problem because cold air is heavier than warm air and therefore 'drops out of the fridge' the moment the door is opened.

why a FoodSafe thermometer?

The FoodSafe food simulant thermometer, on the other hand, is an encased thermometer that ensures that it indicates temperature similar to that of the food stored in the fridge or chill cabinet. Therefore it is not subject to the changes in air temperature that normally occur when the door is opened. It is the temperature of the food that is important in preventing the growth of food poisoning bacteria.

This easy to read FoodSafe fridge thermometer is ideal for domestic or commercial use, as it is reliable, robust and hygienic. The thermometer indicates temperature over the range of -30 to 40 °C with an accuracy of ± 1 °C over the range of -5 to 20 °C, 1 °C thereafter. The unit is housed in a clear plastic case with colour-coded zones that indicate when the temperature is too warm. The FoodSafe thermometer measures $\varnothing 25 \times 150$ mm high.

Each FoodSafe thermometer is supplied with a metal hook for hanging in a fridge.

Fridge or Freezer Thermometers

spirit-filled with colour-coded zones

spirit-filled thermometer

This spirit-filled fridge/freezer thermometer indicates temperature over the range of -30 to 30 °C with a 1 °C resolution.

The thermometer is encased in a clear ABS housing (7 x 25 x 155 mm) and incorporates a clearly marked temperature scale with colour-coded zones.

The unit is designed to be hung from a shelf in a fridge, freezer or cold cabinet.

order code	description
803-080	spirit-filled thermometer
803-085	box of 20 spirit-filled

clear spirit-filled thermometer

This spirit-filled fridge/freezer thermometer is encased in a clear ABS housing (10 x 30 x 122 mm). The thermometer's colour-coded zones indicate temperature over the range of -40 to 20 °C and -40 to 80 °F.

The unit is designed to be hung from a shelf or wall-mounted (brackets supplied).

803-925	clear spirit-filled thermometer

Fridge or Freezer Thermometers

easy to read bi-metal & spirit-filled

Ø52 mm dial thermometer

This easy to read fridge/freezer thermometer has a Ø52 mm dial. The thermometer indicates temperature over the range of -30 to 30 °C in 1 °C divisions.

The unit incorporates colour-coded zones for ease of reading. The fridge/freezer thermometer is housed in an ABS case that incorporates a plastic hook to hang from a shelf.

order code	description
800-100	Ø52 mm dial
800-101	Ø52 mm dial - box of 20

Ø70 mm dial thermometer

This fridge/freezer thermometer has a Ø70 mm dial. The thermometer indicates temperature over the range of -30 to 30 °C in 1 °C divisions. The unit incorporates colour-coded zones for ease of reading.

The fridge/freezer thermometer is housed in an ABS case measuring 60 x 70 mm. The thermometer can be free-standing or hung from a shelf.

order code	description
800-000	Ø70 mm dial
800-001	Ø70 mm dial - box of 10

spirit-filled thermometers

These spirit-filled fridge/freezer thermometers feature clearly marked colour-coded zones for ease of reading.

The horizontal thermometer indicates temperature over the range of -30 to 40 °C in 1 °C divisions. The ABS housing measures 53 x 130 mm. The thermometer can be free-standing or hung from a shelf.

The vertical thermometer indicates temperature over the range of -30 to 40 °C in 1 °C divisions. The ABS case measures 24 x 150 mm and incorporates a plastic hook to hang from a shelf.

order code	description
803-000	vertical spirit-filled
803-050	horizontal spirit-filled

Ø50 mm dial thermometer

This stainless steel, fridge/freezer thermometer has a Ø50 mm dial. The thermometer indicates temperature over the range of -30 to 30 °C in 1 °C divisions.

The colour-coded area indicates when the thermometer is at the correct temperature for a fridge or freezer. The housing measures 60 x 70 mm and can be free-standing or hung from a shelf.
