Universal pH Test Strips

These test strips are prepared as non-bleed system. The indicator therefore does not contaminate the solution being tested. A measurement of buffered as well as weakly ionic solutions is possible. There are two different formats in the universal test strips that are available.

- Cat No CZ 0114-3 Pad**
pH 3 Pad Test

pH 1 to 14 (1.0 Unit Intervals)

- Cat No CZ 0114**
pH Test

pH 1 to 14 (1.0 Unit Intervals)

Narrow Range pH Test Strips

The narrow range test strips are prepared as a non-bleed system. These indicator strips are useful when a narrow pH range is to be identified. These strips are also capable of measuring low ionic solutions, as well as those that are buffered.

- Cat No CZ 0015
pH Test pH 0 to 1.5 (0.3 0.5 0.8 1.0 1.5)
- Cat No CZ 3060
pH Test pH 3 to 6 (0.5 Unit Intervals)
- Cat No CZ 5090
pH Test pH 5 to 9 (1.0 Unit Intervals)
- Cat No CZ 9013
pH Test pH 9 to 13 (0.5 Unit Intervals)
- Cat No CZ 1114
pH Test pH 11.5 to 14 (0.5 Unit Intervals)
- Cat No CZ 0025
pH Test pH 0 to 2.5 (0.5 Unit Intervals)
- Cat No CZ 4070
pH Test pH 4 to 7 (0.5 Unit Intervals)
- Cat No CZ 7010
pH Test pH 7 to 10 (0.5 Unit Intervals)
- Cat No CZ 1013
pH Test pH 10 to 13 (0.5 Unit Intervals)
